FORESIGHT-ORIENTED IT SYSTEM SUPPORTING HIGHER EDUCATION AND CAREER DEVELOPMENT

The project "Foresight-oriented IT system supporting higher education and career development (FORhesIT)" benefits from a grant of EUR 148,620.00 received 85% from Iceland, Liechtenstein and Norway as part of the EEA Grants and 15% from Poland's Government Budget (Project number: EEA/21/K4/W/0118).

Working together for a **green**, **competitive** and **inclusive** Europe.

The FORhesIT project is now entering its final stage of implementation. Work on the IT tool Create the Future is being finalized. We are preparing for the testing stage and dissemination to all potentially interested parties.

Check the details!

Project Team

**FORESIGHT is exploring
the future - not predicting it!**

WE ARE FINALIZING WORK ON THE IT TOOL CREATE THE FUTURE

The turn of September and October is a time of intensive work on the main result of the FORhesIT project. It is an IT tool supporting the process of creating alternative career development scenarios. Let us remind you that the tool is a web application that enables both group and individual work.

It includes, among others, modules:

- identification and analysis of factors influencing the selected area of the developing future (STEEPVL analysis);
- uilding future development scenarios (e.g. labor market);
- SWOT analysis of a selected future development scenario.

We are currently in the final phase of internal testing, and tests with target groups will begin immediately afterward.

TAKE PART IN TESTING THE *CREATE THE FUTURE* TOOL!

Workshops will be held soon to test the IT tool *Create the Future* developed for the FORhesIT project. **We invite teachers, career advisors, students, and Ph.D. students** who want to plan their future using the proposed tool and want to have a real influence on the final form of the application to participate in the workshops.

Our team will provide detailed information on planned workshop dates:

- **Radom:** Jolanta Religa (jolanta.religa@itee.lukasiewicz.gov.pl)
- **Białystok:** Danuta Szpilko (d.szpilko@pb.edu.pl)
- **Oslo:** Joakim Velevatn (Joakim.Valevatn@teknologiradet.no)

WE INVITE YOU TO DISSEMINATION EVENTS

At the end of 2023, further events promoting the FORhesIT project will be held in Białystok and Oslo. The first seminar took place on the 30th of September 2023 in Gniezno and two events were also held in Białystok (4th and 9th of October).

Event participants have a unique opportunity to comprehensively learn about the project - its goals and results, and also have the opportunity to test the functionalities of the IT tool together with its creators.

We encourage you to follow our social media and website, where event dates will be published soon. Our team will provide detailed information:

Łukasiewicz-ITEE (Radom): Jolanta Religa – jolanta.religa@itee.lukasiewicz.gov.pl

Białystok University of Technology (Białystok): Danuta Szpilko - d.szpilko@pb.edu.pl

Norwegian Board of Technology (Oslo): Joakim Velevatn - Joakim.Valevatn@teknologiradet.no
